START YOUR CAREER IN CARPENTRY WITH A SCHOOL BASED APPRENTICESHIP (SBAT)

A School Based Apprenticeship or Traineeship (SBAT) is more than just a part-time or casual job. It gives you a head start towards your trade apprenticeship whilst you are in Year 11 and 12. The SBAT program combines on the job industry experience, vocational training and your HSC. And best of all, you get paid to learn!

How do I start?

- The completion of your Higher School Certificate significantly impacts your options after school. In year 10, prior to selecting subjects, do your research.
- Speak with your Careers Advisor about a School-Based Apprenticeship in Carpentry.
- Discuss all your options with your parents or caregivers as they know you best.
- To start the SBAT program you need to find an employer.
- Master Builders can enrol you into the SBAT in Carpentry program and help you find a host employer.

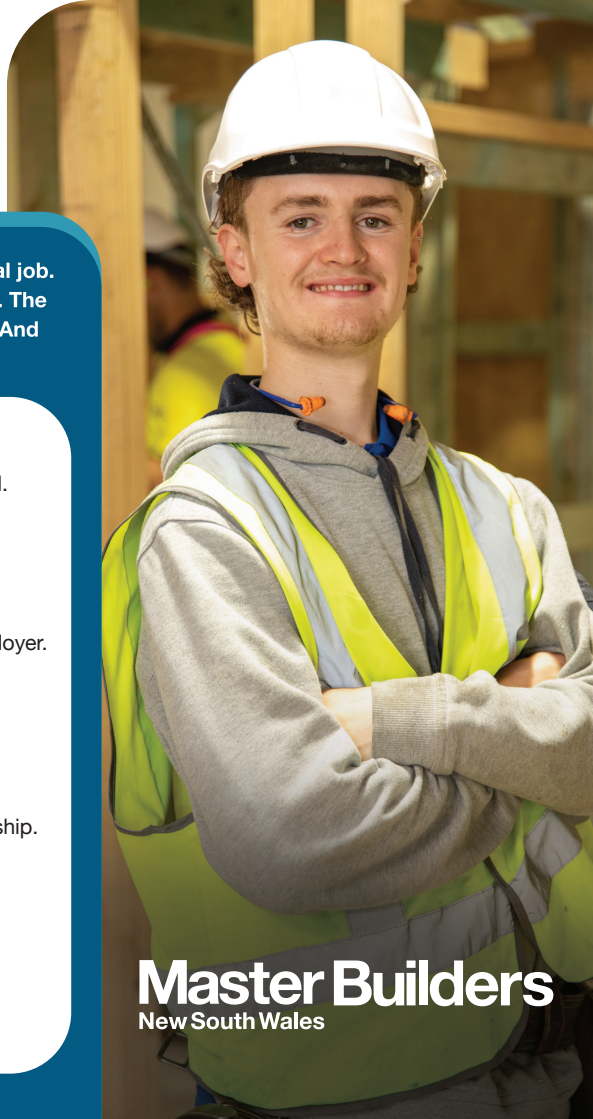

Benefits

- Start your career in Carpentry while you complete your Higher School Certificate.
- Earn while you learn and no student loans.
- Gain valuable on the job work experience and practical carpentry skills.
- Upon graduation from school the SBAT provides a pathway to a full-time Carpentry apprenticeship.
- Work towards a nationally recognised qualification CPC30220 Certificate III in Carpentry.

Outcomes

At completion of Year 12, you'll already have completed:

- Work Health and Safety training
- Stage 1 of CPC30220 Certificate III in Carpentry
